

NRx[®] for Pharmacy

The complete and intuitive pharmacy management system. QS/1[®]'s NRx enhances your pharmacy's overall productivity with tools to simplify workflow, process claims, manage inventory, and more. NRx integrates with other QS/1 products, including Point-of-Sale, SystemOne[®] for HME, Multi-Site Management (MSM[™]), IVR, and Web Refill Services to provide the most comprehensive approach to pharmacy in America. It's backed by the confidence of 35 years of experience and the support of an industry-leading provider.

Easy to Learn and Use

New employees and busy staff appreciate NRx's intuitive layout and easy navigation. Most functions are accessible by either mouse or keyboard. Data is quickly accessed by customizing the sidebar for the functions and scans you use most. Up-to-date online Help enables you to quickly answer questions.

Improved Refill Processing and Adherence

QS/1's InstantFill[™] automatically queues eligible IVR and Web refills, prints the labels, and can send them to automated dispensing systems. QS/1's HealthMinder[®] enables you to create customized refill reminders and automated refill programs, ensuring you don't miss refills due.

Keep Prescriptions Moving

Pharmacists enjoy fast, safe processing and speedy satisfaction of DUR messages and error correction. QS/1's flexible Workflow module addresses your pharmacy's unique needs. Pharmacy at a Glance helps you pinpoint and eliminate potential bottlenecks, while Will Call allows you to quickly find prescriptions at checkout. The electronic claims scan identifies problems and suggests corrective measures.

Tools to Enhance Your Business

NRx's Medication Therapy Management (MTM) enables you to manage disease management and immunization programs, while built-in reporting tools provide flexibility and user-specific customization. The Return to Stock feature, along with inventory control and electronic ordering, reduces inventory costs leading to greater profits and maximum utilization of cash.

Comprehensive Support and Training

QS/1's service and support has been carefully crafted over decades of serving pharmacies and is available via toll-free telephone number and WebChat. Comprehensive training is available through self-paced learning programs as well as interactive training sessions with a live trainer. Learning opportunities are also available through our webinars and annual customer conference.

Online Demo

Test drive QS/1's NRx Pharmacy Management System with our online demo at www.qs1.com and see firsthand how NRx can help your pharmacy tackle day-to-day challenges.

- Quickly process eligible IVR and Web refills and renewals automatically with InstantFill.
- Build your own quick list of commonly-prescribed medications using the customizable sidebar for commonly-used tasks and patient, drug, and prescriber scans.
- Expand productivity with optional integrated modules for workflow, accounts receivable, document imaging, signature capture, and long-term care.
- Create a total pharmacy solution by adding integrated POS, HME, Multi-Site Management, IVR, and Web Refill Services.
- Interface seamlessly with many products, including automated counting and dispensing, billing and admission systems, POS, and IVR.
- Enjoy a full range of additional services including clinical and price updates, pre- and post-edits, and remote backup.
- Easily install software and clinical updates via Internet Service Packs.
- Receive industry alerts from the QS/1 Message Center with critical information such as drug recalls or claims processing issues.
- Reduce staff training time and expense with Internet-based Help manuals and step-by-step tutorials.
- Get fast, accurate customer support from highly-trained technicians via toll-free telephone number or WebChat.
