

# Consulting Services

Is your pharmacy as efficient and profitable as it could be? Are you planning to acquire, expand, or open additional pharmacies? QS/1<sup>®</sup> addresses these questions by listening to your objectives and making sure no growth opportunity goes unexplored. Our consultants replace speculation with expert analysis, protecting your retail pharmacy investment by reducing risks and helping turn goals into gains and plans into profits.

## **Management**

Pharmacy administration can be complex and multi-faceted. QS/1 consultants observe your management team and make recommendations on how best to organize your store(s).

## **Financial Operations**

The investment in your store is significant. QS/1 analyzes your balance sheet, income statement, inventory, and other financials to help steer you toward greater profitability.

## **Workflow**

QS/1 can help you to safely improve the efficiency of drop-off, filling, counseling, and pick-up workflow.

## **Staffing and Training**

Based on anticipated prescription volume, QS/1 can help with identifying necessary pharmacy resources, creating job descriptions, recruiting, and employee training.

## **Feasibility Studies**

Your pharmacy's site selection is critical to its success. QS/1 consultants can help you find the most desirable new pharmacy location by gathering information about your local market and competition.

## **Design and Construction**

QS/1 is experienced in pharmacy design and can make recommendations for efficient workflow.

## **Legality and Compliance**

QS/1 can help with Board of Pharmacy applications, inspections, state and federal regulations, and compliance with HIPAA, DEA, Medicare Part D, OBRA, and pseudoephedrine laws.
